Internships

Accounting Internship Positions

Student internships are of two types: the first being a balance of audit and tax during the busy season from December through March; and then traditional summer internships are generally audit concentrations from July through August or early September. Both summer and winter are paid internships.

People:

Our continued growth is dependent upon talented people with a variety of skills, knowledge and backgrounds. We hire accounting interns with experience in the following areas:

- Pursuing a Bachelors or Masters in Accounting/Taxation
- Proficient with MS Excel skills and familiar with the MS Office Suite
- Solid verbal and written communication skills
- Self-starter with the initiative to ask questions and seek out challenges

What to expect:

A fun experience designed to ensure Interns understand: our culture, our competitive landscape, our technologies and our leadership philosophy.

Here are some top benefits to highlight:

- We are truly a work-life balance firm with flexible hours in the summer and plenty of overtime opportunities in the winter.
- Challenging work on a broad range of clients in a variety of industries.
- Firm sponsored sports teams (softball, volleyball and soccer)
- Summer Social with Family (river rafting, luau, golf outing, etc.)
- Winter April 15th Party at the Country Club.

Winter Internships:

Since our winter internships cover both tax and audit, we ask students to take winter term off from school. However, interns can earn up to 6 accounting credits based upon the number of hours they work.

Summer Internships:

Our summer internships are very flexible. You are responsible for completing your assigned work, but it is not uncommon for interns to be able to take a vacation or plan a 3 day weekend.
